1pm-2pm

2pm-3pm

Please email [ttdfp@lipasixthformcollege.org](mailto:ttdfp@lipasixthformcollege.org) by 17th November to book

We invite you to experience the culmination of a project by our year 12 & 13 LIPA Sixth Form College students studying the Technical Theatre and Design for Performance courses. Working in small groups, they have researched, designed, and created a series of final pieces that make up the installation based on the theme of Chocolate. Our theatre space has been transformed!

The installation has been created using a range of theatrical skills, including set, costume, lighting and sound design, scenic and props construction, and painting.

Your pupils will witness firsthand, the realisation of a dynamic process that links into the assessment objectives for GCSE Art and Design, Design and Technology, and Drama. Students' work on the installation has involved analysing and adapting their design decisions throughout the making process, in order to realise their artistic intentions. You and your pupils will have the opportunity to experience the installation, which will be followed by a student talk and Q+A where they will gain an understanding of how ideas have been developed and explored and followed through to communicate a personal and meaningful response to a brief.

Design for Performance and Technical Theatre students and staff will be on hand throughout to discuss and explain all aspects of the installation.
